

CITY OF FRESNO

230009

BUILDING INSPECTOR III

DEFINITION

Under supervision, examines, evaluates, and approves complex construction or alteration of residential and light commercial buildings in accordance with the Building, Plumbing, Mechanical, and Electrical Regulations of the Fresno Municipal Code; and provides assistance to the Senior Building Inspector in advising others on work methods and practices, assignment and dispatching of work, training, and providing field assistance to subordinates.

SUPERVISION RECEIVED/EXERCISED

Receives supervision from Senior Plans Examiner. Exercises no supervision.

DISTINGUISHING CHARACTERISTICS

Building Inspector III is an advanced combination working level class in the Building Inspection series. Incumbents engage in the enforcement of pertinent codes, ordinances, and regulations related to fire, life and health safety, accessibility, structural and nonstructural, plumbing, mechanical, and electrical elements of construction, for public or private building projects permitted within the City of Fresno and provide consulting services to architects, engineers, designers, contractors, and owners. This class is distinguished from Building Inspector II in that incumbents of the latter do not assume the roll of a lead worker. This class is distinguished from Senior Building Inspector in that the incumbent of the latter is the first-line supervisory level in the Building Inspection series.

EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES

(May include, but are not limited to, the following:)

Examines, evaluates, and approves the building, plumbing, mechanical and electrical installations or alterations of multi- and single-family residential and light commercial buildings.

Inspects, evaluates, and approves construction of the structural system, fire, life and health safety and disability access requirements, on-site grading, landscaping, and related architectural and zoning requirements and improvements.

Maintains plan files, progress reports, permit inspection records, time and cost records.

Investigates alleged violations of the Fresno Municipal Code and related policies.

May perform field work necessary for the issuance of permits for construction, alterations, or change of occupancy of existing structures, including preparation of subsequent reports.

Provides assistance to the Senior Building Inspector in advising others on work methods and practices, assignment and dispatching of work, training, and field assistance to subordinates.

May perform or assist in plan review of proposed projects for code compliance.

Upon request, assists other members of the inspection staff.

Performs other related duties as assigned.

JOB RELATED AND ESSENTIAL QUALIFICATIONS

Thorough Knowledge of:

Specifications, codes, ordinances, regulations, and practices used in the design and construction of building, plumbing, mechanical, and electrical installations in residential and light commercial building occupancies and accessory structures.
